

Murder Investigation

murder investigation

Immerse your team, push boundaries and open your eyes to the challenges faced by Detectives and Crime Scene Investigators. The “Killing” team event, created by senior Ex-Detectives and forensic scientists, is the most immersive and thrilling experience there is. Be entertained and captivated through a series of forensic challenges using real equipment, giving you the opportunity to solve the case through the actual methods employed by real Crime Scene Investigators.

CEO Jonathan Buckley has been found murdered in his office... from blood, ballistics, fingerprinting, DNA and much more your teams will need to solve this crime and catch the perpetrator! Delve into your team files, police statements, evidence and snippets of information! All of this will help your team to solve who committed the bloody murder!

Are you ready to find out what the motive is? How the murder took place? What evidence is available to connect suspect(s) to the crime scene? Unlike the event, it will be quick and easy to uncover how the activity ‘The Killing’ is so prestigious.

THE KILLING ACTIVITY INCLUDES:

Full briefing from our enthusiastic trainer
Fingerprint masterclass (including taking your own & dusting for fingerprints)
Background to the crime!
DNA, forensic dentistry, hair & fibre analysis, fingerprinting, blood spatter patterns,
Ballistic examination (bullets), constructing photo fits (using fbi software)
The evidence is collated and teams come to a conclusion
Medals are awarded to the winning teams
