

Virtual Terrarium Workshop

Terrarium *Workshop*

If you've ever wanted to build your very own self-sustaining living garden, then look no further...

In this relaxed, creative workshop you will re-connect with nature, learning the whys and how's for making a self-contained living botanical environment. Inside your terrarium, your chosen plants will thrive off the moisture inside and will look after itself.

As part of the workshop we will teach you the fascinating history of terrariums before getting your hands dirty... Then you will be taught layering and planting techniques. Once built, we will run through some watering techniques and how to best position your garden, plus after-care advice too.

Guests join our expert plant geek and escape to his virtual tropical garden! Kits will be posted to all participants in advance of the event containing everything needed to create your terrarium. Kits contain a jar, gravel, soil, tools and a selection of exotic plants.

At the end of the activity guests can present their terrariums and a winner will be chosen. We will then post a prize to the winner. Once the activity is finished guests will enjoy finding a spot in their house perfect for their new terrarium.
