# Firework Displays

No occasion is complete without the thrill of a spectacular firework finale. Our incredible displays will inspire and enthrall, and our category 4 fireworks will make a BIG impact on your guests! Category 4 fireworks are the largest professional pyrotechnics available. They can only be fired by licensed operators and are therefore rarely seen at private events. Various packages are available dependant on your budget, our most popular designed to offer a constant barrage of booms, bursts and effects are listed on the following page.

**What happens if it rains?** Our crew can produce your show in the rain or the snow. The only weather that would cause a display to be cancelled is extremely high winds. Most venues have an indoor area from which your guests can comfortably view the fireworks in the event of bad weather.

**How late can I have fireworks?** In the UK the law states you must not set off fireworks between 11pm and 7am. The exceptions are: Bonfire Night, when the cut off is midnight and on New Year's Eve, Diwali and Chinese New Year the cut off is 1am.

**Need more?** Longer shows can be arranged at your request and can be designed to suit your personal requirements and budget. Our fireworks can be combined with lighting effects and lasers and we can also design special firework messages and logos to commemorate your unique occasion - POA. We can also provide event security, tannoy systems, outdoor lighting, control barriers and on-site paramedic services, if required.
